Our History

Compliant with EU
Tissue & Cell Directive
(2004/23/EC)

2009

ISIS Clinic is founded and becomes the most highly acclaimed fertility centre in the country, building a strong foundation for reproductive care in the Southern Mediterranean

2009 — 2022

Our egg donation programme is developed and expands to support our local and international recipient patients; the need for a dedicated egg donation entity evolves

OVACY
EGG BANK

2023 — Now

In 2023 OVACY Egg Bank is established as a dedicated egg donation service, an elevated patient-centric programme designed to deliver a more refined and personalised experience, committed to clinical precision and compassionate care

Approved by the UK's:

Human Fertilisation &
Embryology Authority

Compliant with EU
Tissue & Cell Directive
(2004/23/EC)

We take our donor recruitment and screening process seriously and therefore offer free DNA extraction for all successfully recruited donors to safeguard our recipients and their future offspring

OVACY
EGG BANK

Quality Guarantee

If no blastocysts are formed, OVACY Egg Bank will replace with six free donor eggs (from the same or a new donor depending on availability), once per recipient and without any further guarantee

Criteria

- The sperm used contains a minimum of 5 million/ml in the final preparation with normal morphology ($\geq 4\%$)
- The fertility treatment takes place at an OVACY Egg Bank approved fertility centre.
- The request is submitted within 12 months of the initial failed treatment cycle.

Blastocyst guarantee for all treatments with OVACY donor eggs, with free replacement eggs if guarantee is not met.

6 eggs

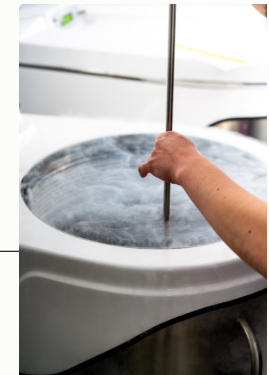

We guarantee **one blastocyst**

8 eggs

We guarantee **two blastocysts**

12+ eggs

We guarantee **three blastocysts**
